Riverton, Utah 84065

Subject: Notice of File Closure for Small Mining Project, Sandy Nell, Kerry Project, S/021/034, Iron County, Utah

Dear Mr. Nell:

This letter is to notify you that the Division file S/021/034, for the Kerry small mining project, located in Iron County, Utah will now be closed.

On July 27, 2004, we received your request to inspect and close your Kerry Project mine permit. As the project is located on federal land managed by the Bureau of Land Management, we needed their concurrence before we could close your file. On August 19, 2004, we received notification from the BLM that they recently inspected the project area and found the only disturbance at the site was casual use. The BLM subsequently closed out their case file for this project. The Division will accept the BLM's recommendation and also close our file for this project accordingly.

You are hereby released by the Division from further mining or reclamation responsibilities at the Kerry Project site. You are not required to pay the \$150.00 permit fee as recently requested. If you wish to conduct any future mining related activity in this area, you will need to submit a new notice to the appropriate agency(s), pay the Division permit fee, and receive written approval(s), prior to creating any disturbance.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5382.

Sincerely,

Doug Jensen
Senior Reclamation Engineer
